

Southern Norway

7th – 30th June 2026

Oslo, Bergen, Flam and Beyond

Join us for a tour of Norway – a land of scenic and cultural wonders with so much to experience and enjoy. This tour will take you to the cities of Oslo and Bergen, to the pristine landscapes of Norway's dramatic coastline and takes in many beautiful scenic drives en route. Get ready to be captivated by all the wonderful views and Fjords that make Norway such an attractive destination.

The start of our tour is Hirtshals in the north of Denmark, from where we take the ferry to Kristiansand, the largest city on Norway's southern coast. It's along this coast many Norwegians spend their Summer Holidays in the area of Grimstad, known for its lovely white painted wooden buildings and narrow streets; and Arendal, which the film "Frozen" was based upon.

If you are familiar with another film, 'The Heroes of Telemark' and its spectacular setting of Rjukan you will picture the location where we visit the Industrial Workers Museum and follow in the footsteps of the saboteurs.

We spend time in Oslo – the capital of Norway. Oslo sitting at the head of Oslo-fjord is known as the city of green spaces, museums & sculpture parks. With the light nights of being this far north in summer (darkness will come around 11:30pm) there is plenty of time for exploring the outdoor areas of this wonderful capital.

Bergen is Norway's second city and another wonderfully picturesque area, surrounded by mountains and fjords, including Sognefjord, the country's longest and deepest. It's in Bergen you will find Bryggen which features the wooden houses on the old wharf and the Fløibanen Funicular going up Fløyen Mountain for spectacular panoramic views.

Of course, any tour of Norway would not be complete without a visit to Flåm, an area famed for the most beautiful fjords. It sits at the end of Aurlandsfjord, a branch of the vast Sognefjord and it's here the dramatic Stegastein viewing platform juts out high above. Then for a real highlight of Norway it's off for a journey on the dramatic Flåm Railway, where we travel by train through numerous valleys, passing waterfalls and enjoying spectacular views as we climb to the Hardangervidda plateau.

Having completed the tour, you will have experienced a wonderful adventure in one of Europe's most picturesque countries and at a special time of year for travelling this far north.

Some not so easy driving but excellent rewards and views. Location of some sites was exceptional, memories to treasure. Thank you.'
