

Austrian Alps

8th – 24th September 2026

Superb scenery and simply stunning driving

Enjoy breath taking scenery as we travel through the very best of the Austrian Alps including driving the stunning Grossglockner High Alpine road, a purpose-built Alpine pass with a series of museums for visiting along the way.

As well as exploring the Alpine scenery, we have a tour underground of the world's oldest (around 7,000 years) active salt mine, and visit Krimml Waterfall (at 380m high Europe's largest). Enjoy stays with guided visits in two of Austria's best cities – Innsbruck and Salzburg. And along the way, seven quality group meals are included.

The tour can be completed off motorway if desired, so there is no necessity for a 'Go Box' or 'Vignette' motorway pass. Throughout the tour there are many stunning drives, all very suitable for motorhomes as they are used by full sized coaches, however, at times a confident driving approach will be required.

A free day. We are now in the Grossglockner National Park and the Alpine village of Heiligenblut is walkable from our campsite.

Day Nine – Wednesday 16th September

Today we drive the wonderful Grossglockner High Alpine Route. Built in the 1930's this is for many people simply the best driving experience in Europe. At just 30 miles, it is not long, but allow all day to pass as it is so much more than just a road. The whole area is a national park and along the way are 12 museums to visit covering the history from building the road, to the efforts required for clearing the snow to open it on the 1st May each year, to the wildlife and nature that survive and live at this altitude. Having crossed the

Grossglockner, we arrive at Zell am See and our campsite right on the lake, where we have dinner in the campsite's own restaurant this evening. **35 miles**. Note the Grossglockner National Park is a toll road and this is payable locally at around €40.

Days Ten and Eleven – Thursday 17th and Friday 18th September

Free days. Our Zell am See campsite is in a great location both for scenery and convenience. From the campsite's own jetty lake cruisers can be taken for a tour of the lake or as transport to the city. Alternatively, it's a pleasant 2km lakeside walk to the town centre.

Day Twelve – Saturday 19th September

A short drive this morning to Krimml, home of Europe's largest waterfall. Dispensing up to 50 cubic metres of water per second from a height of 380m it's a powerful sight to be seen. We include entrance to the waterfalls, from where there are a number of walking options to gain higher views, or just marvel at the amount of water falling at the bottom. This evening, in the village fountain park take the opportunity to view the 'sonne et lumiere', which is just a couple of minutes walk from our hotel overnight parking. **35 miles**

Day Thirteen – Sunday 20th September

This morning we have a leisurely start to the day and are treated to breakfast in the hotel. Later we travel the scenic route through the world famous Kitzbuhel ski region to arrive in Salzburg. **90 miles**

Day Fourteen – Monday 21st September

We have a full day in Salzburg where our English speaking guide will help us get to know this city of music. Mozart spent most of his time here and Salzburg is the centre of the 'Sound of Music'. However, there is a lot more to Salzburg than just music, as you'll discover. Lunch is included today in a city restaurant.

Day Fifteen – Tuesday 22nd September

We travel to Hallstatt, where we find the houses are all built of wood including the roofs. They stem back to the days when the town housed only salt mine workers, today the whole area is a UNESCO World Heritage site and a unique location to see. With a short journey and our campsite wonderfully positioned right in town you'll have time to explore this fascinating place throughout the afternoon. **50 miles**

Day Sixteen – Wednesday 23rd September

Today we take the funicular railway to a high point, for a magnificent view over-looking the Alpine Lake of Hallstatter See. We then have the opportunity to visit the original and still producing Hallstatt Salt Mine, dating back over 7,000 years this is the oldest active mine in the world. Not only is it a wonderful experience it is also educational, covering the history of the mine and the important role salt has played over the years. Note: this visit may not be possible for people with restricted mobility.

This evening we have our farewell dinner in a picturesque area of the old town, it's an opportunity to enjoy good food whilst looking back at the many great places we have visited.
